

Got Dust?

DUST CONTROL APPLICATION – 2020 SEASON

Product Used: Magnesium Chloride

- **Application and payment must be received in our office by April 15th.**
- Specific application dates are based on when the County has prepared the roads and authorized us to begin spraying. Dates are subject to change and are impacted by weather. The first application occurs Mid-May through Mid-June. The second is approximately 60 days after the first application.
- Applicant agrees to maintain flags to mark outer limits of the area to be treated. **Flags must be in place April 15th until October 15th.** Failure to do this could result in the area being bladed. Neither the County nor Heffron Services assume any liability if your flags are not in place. If area is not marked, drivers will either center on your house or use their best judgment for location.
- Our trucks are equipped with computer equipment that allows us to spray the exact amount of footage ordered. If your flags are set longer than the footage paid for, your dust control will not reach both flags. If your flags are set shorter than the footage paid for, your dust control will extend past your flags.
- The county reserves the right to blade the treated area to maintain the public safety. Your road will be bladed after October 1st.
- Heffron Services, Inc. does not guarantee the performance of the product due to factors such as weather, surface preparation, gravel materials, heavy traffic patterns and maintenance of the roadway.
- **Include payment with this application.** We will cash your check after the first application, or May 15th whichever is earlier.

PERMIT PROVISIONS

1. The contractor does agree in order to protect itself, as well as Hamilton County, to have in force a general liability insurance policy during the time of construction in the amount of at least Seven-hundred, fifty-thousand dollars (\$750,000). **A Certificate of Insurance will be provided to Hamilton County prior to any construction.**
2. Traffic control devices, procedures, layouts, signing, and pavement markings installed within the limits of this permit shall conform to the "Manual on Uniform Traffic Control Devices for

Streets and Highways” as adopted by the DOT per 761 of the Iowa Administrative Code Chapter 130.

3. Work to be performed in May and August dependent on weather conditions.
4. The applicant shall obtain the permit form directly from their preferred supplier, fill the form out completely, and submit with payment to the company they select to apply the dust control material. The contractor shall also sign the permit and submit to the Hamilton County Engineer for final approval and road preparation.
5. Applicants shall make arrangements with the supplier and applicator of their choosing and financing of the work shall be the sole responsibility of the applicant.
6. The only materials, which may be used on the roadway for dust control, are calcium chloride, magnesium chloride, lignin sulfonate, or soybean oil.
7. The contractor shall inform the County Engineer at least five days prior to application so the road surface can be prepared for the dust treatment or in the event the particular road is scheduled for granular resurfacing, spot resurfacing can be applied by the County prior to the dust treatment.
8. **The county shall continue to perform the necessary maintenance and construction functions required within and upon the treated roadway, and if potholes or other roughness develops, the surface will be bladed to fill the depressions and smooth the surface. Any damage, or apparent damage, of the treated roadway resulting from any operation by Hamilton County shall in no way obligate Hamilton County for its repair or restoration. Blading roads for winter preparation will begin approximately October 1 depending on road and weather conditions.**
